Projects

Aadhaar Based Complaint Registration System

Tech Stack-MERN stack, Socket (i/o)

Description- Developed a web-based Aadhaar Card Based Complaint System that authenticates users via OTP verification before lodging complaints. Ensures only verified citizens can submit grievances, preventing fake and duplicate complaints. Includes department-wise routing to forward complaints to the right authority automatically. Citizens can track complaint status in real-time through SMS and email notifications. Admin dashboard allows centralized monitoring, workflow management, and performance reporting.
